TO WHOM IT MAY CONCERN

RECOMMENDATION LETTER

This is to confirm that **Tonny Ochieng Ouma** successfully completed her industrial attachment at **Quava-tel Limited** in the NOC Department from 01st May 2026 to 31st July 2026.

During his attachment, Tonny supported the team across multiple functions and gained practical exposure to fibre network operations. His key responsibilities included:

Network Operations Centre (NOC)

- Participated in Network Operations Centre (NOC) activities, gaining practical exposure to real-time network monitoring, performance analysis, incident management, and operational reporting.
- Developed an understanding of network infrastructure management through the use of industry-standard monitoring, ticketing, and network management platforms, including GDMS, ADVA, and Wialon.
- Supported the preparation of operational and performance reports to facilitate network performance tracking and service delivery.

Systems Administration & IT Infrastructure

- Acquired hands-on experience in systems administration by supporting workstation maintenance, software deployment, operating system updates, and end-user technical support.
- Enhanced knowledge of IT infrastructure management, workstation security, and preventive maintenance practices to ensure system reliability and operational efficiency.

Fiber Infrastructure & Maintenance (FTTH)

- Gained practical exposure to fiber optic network operations, including fault restoration, fiber splicing, network troubleshooting, and Fiber-to-the-Home (FTTH) deployment activities.
- Participated in field surveys, installation, commissioning, and quality assurance processes, building an understanding of best practices in telecommunications infrastructure implementation and maintenance.

Environment, Health & Safety (EHS)

- Actively participated in regular Environment, Health and Safety (EHS) training sessions, developing a strong appreciation of workplace safety standards, risk management principles, and compliance requirements.

11 AUG 2026

- Applied safe work practices during both office-based and field operations, reinforcing a culture of safety and operational excellence.

Tonny executed his duties with diligence, accuracy, and professionalism. He demonstrated discipline, a strong willingness to learn, and the ability to work with minimal supervision. He adapted well to a fast-paced technical environment and worked collaboratively with team members to achieve departmental objectives.

We confidently recommend him for future opportunities in the NOC and telecommunications field.

Yours Truly,

Schebett
